CIRCLE WALL / Design R&D De Castelli

A photograph of a minimalist architectural model. The model consists of several golden-brown, angular blocks of varying heights and widths, arranged in a row. A large, circular, textured golden-brown disc is positioned behind the blocks, partially obscured by them. The scene is lit from the side, creating strong highlights and deep shadows. The background is dark. The text 'ARCHITECTURAL' is centered in white, uppercase letters, and 'Hard variations' is centered below it in a smaller, italicized white font.
